

Colorado Housing Market

Group 3: Lindsey Stearns, Brissa Gonzalez, Elena Winter, Andre Encinas, and Mike Quick

Why look at the CO housing market?

- Housing prices have been on the rise for the last decade in CO
- Population has increased 1.4 million people since 2000
- Will prices continue to rise to a point of unsustainability?

Data sources

- Median housing price from the Federal Reserve of Economic Data
- Population from City of Denver

Data exploration and analysis

- Pulled multiple data sources on housing, income, etc.
- Cleaned data
- Processed through a machine learning model (linear regression)
- Review results

Future analysis?
